CAREER OBJECTIVE

Motivated M.Sc. Computer Science graduate with hands-on experience in full stack web development, REST API development and AI integrated systems. Proficient in Python, Java, JavaScript, Node.js and modern web frameworks. Seeking a Junior Software Developer or Full Stack Developer role where I can apply my technical skills to build scalable and impactful software solutions. Open to relocation to the job location.

EDUCATION

M.Sc. Computer Science — Sadakathullah Appa College, Manonmaniam Sundaranar University *2024 – 2026*

B.Sc. Computer Science — Sadakathullah Appa College, Manonmaniam Sundaranar University *2021 – 2024*

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript
Web Frameworks: Spring Boot, Node.js, Express.js
Frontend: HTML5, CSS3, JavaScript (ES6+)
Databases: MySQL, SQL, SQLite
Tools & Platforms: Git, GitHub, VS Code, IntelliJ IDEA, MS Excel, MS Word
AI & ML: YOLO, OpenCV, Deep Learning, Streamlit
Domains: Full Stack Development, RESTful APIs, AI Systems, Software Engineering

ACADEMIC PROJECTS

YOLO-Based Density-Aware Traffic Light System *M.Sc. Final Year Project | 2025 – 2026*
Tech: Python | YOLO | Streamlit | OpenCV | SQLite

- Developed an AI-powered web application detecting real-time vehicle density at intersections using a YOLO deep learning model.
- Implemented adaptive signal control algorithm adjusting signal durations based on vehicle count and emergency vehicle presence.
- Built complete Streamlit web interface with user authentication, video upload, live detection output and analytics dashboard.
- Integrated SQLite database for detection history, signal logs and automated PDF report generation.

Online Food Delivery Website *B.Sc. Final Year Project | 2023 – 2024*
Tech: HTML | CSS | JavaScript | Node.js | MySQL

- Built a complete full-stack web application enabling users to browse menus, place orders and track deliveries in real time.
- Designed responsive frontend with dynamic cart and order management for seamless user experience.
- Developed RESTful backend APIs using Node.js with persistent data storage in MySQL.

INTERNSHIP&TRAINING

Full Stack Web Development Intern — AstaSystech

- Completed structured training in full-stack development using HTML, CSS, JavaScript, Node.js and MySQL.
- Built real-world projects including REST APIs, database schemas and integrated UI components with backend services.
- Followed agile-style workflows, participated in code reviews and managed source code using Git and GitHub.

CERTIFICATIONS

- Full Stack Web Development — AstaSystech (Training Certificate)
